

Harrogate area Clients:

We are pleased to announce some important new arrangements to help us provide an improved service to increasing numbers of clients in the Harrogate area:

1: We have had a long association with Alison & Frank Addyman at **Parks Farm Equine Therapy Centre** and have referred a large number of clients to them to make use of their excellent **Hydrotherapy Spa and rehabilitation facilities**. We also work closely with Farrier **Gary Harland**, McTimony Practitioner **Tim Jarman**, and Equine Dental Technician **Robert Ruddy** at Parks Farm.

We were involved in the design of some of the new facilities at Parks Farm: the examination room, which was built as a fully protected Radiography (X-ray) room.

We are pleased to announce that Ledston Equine Clinic has just completed the provision of **X-ray, Ultrasound**, recording **E.C.G** (for resting and exercise cardiac assessments) and **endoscopy** facilities at Parks Farm.

We will be holding out-patient clinics there every Tuesday, for routine healthcare (vaccinations etc), medical, and lameness examinations.

Pre-purchase examinations can also be carried out there.

*ALL Appointments should be made through our main office on **01977 668777**.*

2: **Pre-booked** visits to the Harrogate area on **Tuesdays** will be charged at a discounted rate in future. A map showing the area covered by this offer will be published here shortly. Please call the office for further details.
